Independent Auditor's Report

August 23, 2022

Board of Directors
The Community Foundation of the Texas Hill Country, Inc.
Kerrville, Texas

Opinion

We have audited the accompanying consolidated financial statements of The Community Foundation of the Texas Hill Country, Inc. (a nonprofit organization), which comprise the consolidated statement of financial position as of December 31, 2021, and the related consolidated statements of activities, functional expenses and cash flows for the year then ended, and the related notes to the consolidated financial statements.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of The Community Foundation of the Texas Hill Country, Inc. and subsidiaries as of December 31, 2021, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are required to be independent of The Community Foundation of the Texas Hill Country, Inc. and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about The Community Foundation of the Texas Hill Country, Inc.'s ability to continue as a going concern within one year after the date that the consolidated financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery,

intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of The Community Foundation of the Texas Hill Country, Inc.'s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about The Community Foundation of the Texas Hill Country, Inc.'s ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

THE COMMUNITY FOUNDATION OF THE TEXAS HILL COUNTRY, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS DECEMBER 31, 2021

Note 1 – Nature of Activities

The Community Foundation of the Texas Hill Country (the Community Foundation) was incorporated in 1982, under the laws of the State of Texas as a non-profit corporation to receive and maintain funds, to make grants to charitable efforts, and award scholarships to students in the Texas Hill Country, an area that includes 10 counties: Bandera, Blanco, Edwards, Gillespie, Kendall, Kerr, Kimble, Mason, Real, and Uvalde.

The Community Foundation Holdings, LLC was established on December 8, 2021, under the laws of the State of Texas as a limited liability company with The Community Foundation being its sole member. The purpose of The Community Foundation Holdings, LLC is to hold and manage real estate for the benefit of the Foundation.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting – The consolidated financial statements of the Community Foundation have been prepared on the accrual basis of accounting in accordance with generally accepted accounting principles. Accordingly, revenues are recognized when earned, and expenses are recognized when incurred.

Contributions to the Community Foundation are recorded in separate accounting funds (Funds), and each Fund is used exclusively for the charitable purpose(s) designated by the donor. The Board of Directors has the responsibility for both the investment and distribution of income and/or principle from each Fund for charitable purposes.

Principles of Consolidation – The consolidated financial statements include the accounts of the Community Foundation of the Texas Hill Country and Community Foundation Holdings, L.L.C. (collectively referred to as “the Community Foundation”). All significant inter-company transactions and balances have been eliminated in consolidation.

Basis of Presentation – The Community Foundation reports information regarding its financial position and activities according to two classes of net assets: without donor restrictions and with donor restrictions. Net assets without donor restrictions are defined as assets that are free of donor-imposed restrictions, and include all investment income and appreciation not subject to donor-imposed restrictions, as discussed below. Net assets with donor restrictions are net assets whose use has been limited by donor-imposed time or purpose restrictions or those that are defined as net assets required by the donor restrictions or law to be maintained by the Community Foundation in perpetuity. The Community Foundation reflects restricted contributions whose restrictions are met in the same reporting period as unrestricted support.

Liquidity – Assets are presented in the accompanying statement of financial position according to their nearness of conversion to cash and liabilities according to the nearness of their maturity and resulting use of cash.

Cash and Cash Equivalents – The Community Foundation considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. Cash equivalents for purposes of the statement of cash flows exclude permanently restricted cash and cash equivalents.

Estimates – The preparation of consolidated financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

THE COMMUNITY FOUNDATION OF THE TEXAS HILL COUNTRY, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS DECEMBER 31, 2021

Note 2 – Summary of Significant Accounting Policies (continued)

Fiduciary Duty and Variance Power – The Community Foundation has a fiduciary duty to comply with the charitable purposes expressed by a donor but the Board of Directors has the power to vary the charitable purpose of a Fund if the Foundation determines that changes in conditions have made the donor's restrictions on the stated charitable purpose unnecessary, undesirable, incapable of fulfillment, or inconsistent with the needs of the community. The Community Foundation's powers in this regard cannot be exercised arbitrarily. When, and if, the Board of Directors acquires the authority to vary the charitable purposes of a Fund, it must apply the assets of the Fund to the "most nearly related charitable purpose as in the judgment of the Board of Directors that will effectively accomplish the original charitable intent of the donor."

Property and Equipment – Property and equipment are capitalized at cost or fair market value at date of gift, if donated. Contributions of cash that must be used to acquire property and equipment are reported as restricted support. The Community Foundation reports expirations of donor restrictions when the acquired assets are placed in service or as instructed by the donor. The Community Foundation reclassifies temporarily restricted net assets to unrestricted net assets at that time. Property and equipment are being depreciated over estimated useful lives using the straight-line method. The Community Foundation capitalizes all property and equipment acquisitions in excess of \$1,000.

Investments – Investments in securities, mutual funds, corporate bonds, and government bonds are carried at fair value determined by quoted prices on the last business day of the year. Investments in alternative investment funds that are not readily tradable are carried at an estimated fair value at the end of the period, as determined by management based upon consolidated financial statements, third-party pricing services, and other financial information reported by the administrator of the underlying investment funds.

Donated investments are recorded at fair value at the date of receipt. Investment income may be either with donor restrictions or without donor restrictions resources when earned, determined according to donor-imposed restrictions. The Community Foundation follows a total return concept with regard to investments.

The Community Foundation has significant investments in stocks, bonds, and mutual funds and is, therefore, subject to concentrations of credit risk. Investments are made by investment managers engaged by the Community Foundation, and the investments are monitored by the Community Foundation. Although there are risks associated with market fluctuations, the Board and management believes the investment policy is prudent for the long-term welfare of the Community Foundation and its beneficiaries.

Real Estate Investments – Investments in real estate consist of real property interests, including land and buildings which are used for the production of income. The assets are carried at the lower of cost or fair value on gift date, if donated. All investments in real estate were donated to the Community Foundation and it is the Community Foundation's policy to obtain appraisals from a qualified appraiser at the time of donation. The Community Foundation does not subsequently estimate the fair value of real estate if there are no identified events or changes in circumstances that may have a significant adverse effect on the fair value of the real estate investment due to the prohibitive cost of obtaining periodic appraisals.

Beneficial Interest in Perpetual Trust – The Community Foundation is the beneficiary of a perpetual trust held by a third party. Under the terms of the trust the Community Foundation has the irrevocable right to receive a percentage of the income generated by the trust in perpetuity. The beneficial interest is recorded at fair value, which is based on the fair market value of the underlying assets held in the trust as provided by the trustee. Management evaluates the fair values provided by the trustees and when deemed appropriate, makes adjustments to the trustee's fair values.

THE COMMUNITY FOUNDATION OF THE TEXAS HILL COUNTRY, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS DECEMBER 31, 2021

Note 2 – Summary of Significant Accounting Policies (continued)

Fair Value – Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”), Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The three levels of the fair value hierarchy are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Community Foundation has the ability to access.
- Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Grants Payable – Grants and scholarships are charged to operations and recognized as liabilities when authorized by the Board, regardless of the year in which they will be paid. The Board authorizes grants based on prudent distribution rate calculation or income earned on investments, depending on each fund's governing language.

Contributions and Support – Contributions received are recorded as support with donor restriction or without donor restriction depending on the existence or nature of any donor restrictions. All contributions are considered to be available for unrestricted use unless specifically restricted by the donor. Amounts received that are designated for future periods or restricted by the donor for specific purposes are reported as with donor restriction support that increases that net asset class.

Unconditional promises to give are recorded as received. Unconditional promises to give due in the next year are reflected as current promises to give and are recorded at their net realizable value. Unconditional promises to give due in subsequent years are reflected as long-term promises to give and are recorded at the present value of their net realizable value, using risk-free interest rates applicable to the years in which the promises are received to discount the amounts. An allowance for uncollectible promises is provided based on management's evaluation of potential uncollectible promises to give at year-end.

Contributions of donated noncash assets are recorded at their fair values in the period received. Contributions of donated services that create or enhance nonfinancial assets or that require specialized skills that are provided by individuals possessing those skills, and would typically need to be purchased if not provided by donation are recorded at their fair values in the period received.

Functional Allocation of Expenses – The costs of providing various programs and other activities have been summarized on a functional basis in the statement of functional expenses. Accordingly, pass-through funds and grants have been allocated directly to program services and the remaining costs have been allocated both directly and indirectly to either program or supporting services. The expenses that are allocated include compensation and benefits, which are allocated on the basis of estimates of time and effort, as well as depreciation and occupancy expenses, which are allocated on an estimated square footage basis.

Note 2 – Summary of Significant Accounting Policies (continued)

Federal Income Taxes – The Community Foundation is a not-for-profit Community Foundation that is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code and classified by the Internal Revenue Service as other than a private foundation.

The Community Foundation Holdings, LLC is a disregarded entity for income tax purposes.

In accordance with ASC 740-10, *Accounting for Uncertainty in Income Taxes*, Management has evaluated the Foundation's tax positions and concluded that the Foundation had taken no uncertain tax positions that required adjustment to the consolidated financial statements to comply with the provisions of this guidance. With a few exceptions, the Foundation is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years before 2018.

Types of Funds – The Community Foundation receives contributions that are to be used exclusively for charitable purposes. The donor may have designated one or more specific charitable purposes for all future distributions from the contribution. These Funds are classified by charitable purpose as:

- Designated Funds (if the distributions are restricted by the donor to specific charities)
- Donor Advised Funds (if the distributions are made from donor advisement and subsequent Board approval)
- Field of Interest Funds (if distributions are restricted by the donor to a specified charitable purpose)
- Scholarship Funds (if distributions are restricted to scholarships)
- Discretionary or Unrestricted Funds (if the donor placed no restriction on distributions)

THE COMMUNITY FOUNDATION OF THE TEXAS HILL COUNTRY, INC.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2021**

Note 9 – Fair Value of Financial Assets

The Community Foundation's Investment Committee, appointed by the Board of Directors, is responsible for the overall management of the Foundation's investments in cash equivalent funds and securities (excluding investments in cash equivalent funds and securities held in trusts), including the hiring and termination of investment managers. The Community Foundation's investment managers are responsible for sourcing, evaluating and selecting investments and for the day-to-day operations involving due diligence and other testing procedures in regards to reviewing the reasonableness of fair value for all investments. This includes evaluating the accuracy and adequacy of information provided by custodians and brokers.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021.

Cash and cash equivalents: Valued at carrying value due to the initial maturities of the instruments being three months or less. (Level 1 Measurements)

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded. (Level 1 Measurements)

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Community Foundation at year end. (Level 1 Measurements)

Life insurance: Value based on the accrued statement of cash surrender value provided by the life insurance company. (Level 2 Measurement)

Royalty interests: Certain other investment assets are comprised of non-producing mineral interests. These holdings are valued at a nominal amount for tracking purposes. Producing royalty mineral interests are also tracked but a value is not recorded as they are not considered material to the total investments. (Level 3 Measurements)

Real estate: Value based on the appraised value using the sales comparison approach, obtained upon receipt of the property. (Level 3 Measurements)

Beneficial interest in perpetual trust: Fair value is based on the fair market value of the underlying trust assets as determine by the third-party trustee. Due to the significant unobservable inputs required to estimate the fair value of underlying assets, the Foundation's beneficial interest is classified as Level 3 in the hierarchy.

The following table sets forth by level, within the fair value hierarchy, the Community Foundation's financial assets at fair value as of December 31, 2021:

	Level 1	Level 2	Level 3	Total
Cash and cash equivalents	\$ 1,509,910	\$ -	\$ -	\$ 1,509,910

Note 10 – Liquidity and Availability of Financial Assets

The Foundation's financial assets are considered unavailable when illiquid or not convertible to cash within one year, trust assets, assets held for others, endowments and board designated endowments. Because the Board has variance power, the Board designated endowments may be drawn upon at the discretion of the governing board, but this is not the intention of the Board. The Foundation has a policy to structure its financial assets to be available as its general expenditures, liabilities and other obligations become due.

The Foundation's financial assets available for general use expenditures within one year as of December 31, 2021 consist of the following:

Financial assets:

Cash and cash equivalents	\$ 1,509,827
Other assets and receivables	29,805
Investments	35,914,161
Beneficial interest in perpetual trust	<u>3,919,973</u>

Total financial assets 41,373,766

Less those unavailable for general expenditure within one year:

Investments and other financial assets held for others	8,031,589
Investments in board designated endowments	1,468,409
Donor restricted to maintain as an endowment	3,989,689
Donor restricted to specific purpose	4,898,882
Beneficial interests	<u>3,919,973</u>

Total assets unavailable 22,308,542

Financial assets available within one year to meet

Foundation cash needs for general expenditures \$ 19,065,224

Note 11 – Funds Held for Agencies

FASB establishes standards for transactions in which a community foundation accepts a contribution from a nonprofit organization and agrees to transfer those assets, the return on investment of those assets, or both back to that nonprofit organization. FASB specifically requires that if a nonprofit organization establishes a fund at a community foundation with its own funds and specifies itself as the beneficiary of that fund, the community foundation must account for the transfer of such assets as a liability. The Community Foundation maintains variance power and legal ownership of agency liability funds and as such, continues to report the funds as assets of the Community Foundation. However, in accordance with FASB, a liability has been established for the full value of such funds. The Community Foundation refers to such funds as funds held for agencies.

Note 11 – Funds Held for Agencies (continued)

As of December 31, 2021, the Community Foundation was the owner of 44 funds held for agencies with a combined value of \$8,031,589. The following table summarizes the combined activity in such funds for the year ended December 31, 2021:

Funds held for agencies – beginning of year	\$ 6,838,153
Contributions	708,464
Investment income	132,734
Unrealized and realized gains (losses) – net	641,874
Grants	(185,996)
Administrative fees	(73,539)
Investment expenses	(30,101)
Funds held for agencies – end of year	<u>\$ 8,031,589</u>

Note 12 – Endowments

The Uniform Prudent Management of Institutional Funds Act of 2006 (UPMIFA) was enacted by the State of Texas effective September 1, 2007 (TUPMIFA). The Board of the Foundation interpreted TUPMIFA to require the Foundation to exercise prudence in determining the spending policy for donor-restricted endowment funds while honoring the perpetual nature expressed by the donor, unless otherwise stipulated.

In accordance with United States Treasury Regulations, the Foundation, as a community foundation, possesses the unilateral right of variance power to remove donor-imposed restrictions upon a gift in response to changed circumstances. This power is exercisable only in narrowly defined circumstances. When this power is specifically incorporated within gift instruments, by reference to variance power or the Foundation's bylaws or Plan, the Foundation views its variance power as an explicit expression of donor intent (collectively referenced throughout these consolidated financial statements as explicit variance power).

In accordance with TUPMIFA, the Community Foundation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the fund, (2) the purpose of the donor-restricted endowment fund, (3) general economic conditions, (4) the possible effect of inflation and deflation, (5) the expected total return from income and the appreciation of investments, (6) other resources of the Community Foundation, and (7) the investment policies of the Community Foundation.

The Board has concluded that gifts to the Foundation may be subject to one or more of three types of donor-imposed restrictions: (1) contributions received with restrictions as to the purpose(s) for which the gift may be used (purpose restriction), (2) contributions received with a requirement that some or all of the gift be retained for a specified period of time or until a specified event occurs (time restriction) and (3) contributions received with a requirement that the principal of the gift be retained permanently (endowment restriction). The Board has determined that the Foundation's variance power applies to all three types of restrictions and that only those funds subject to time restrictions or endowment restrictions constitute endowment funds under TUPMIFA.

The Community Foundation would consider an endowment fund to be underwater if the fair value of the fund is less than 80% of the sum of (1) the original value of initial and subsequent gifts donated to the fund and (2) any accumulations to the fund that are required to be maintained in perpetuity in accordance with applicable donor gift instrument. The Community Foundation has interpreted TUPMIFA to permit spending from underwater funds in accordance with prudent measures required under the law. The funds are not currently underwater.

Note 13 – Board Designated Endowment Funds

The Foundation classifies as board-designated endowment net assets (a) the original value of gifts designated by the Board as endowment, (b) the original value of subsequent gifts to the board-designated endowment, and (c) accumulations of investment earnings and/or losses to the board-designated endowment in accordance with Board designations. The Foundation considers all earnings and/or losses on board-designated endowment funds to accumulate in the board-designated endowment fund.

The Foundation has a policy to determine the endowment distribution each year. In establishing this policy, the Foundation considers the long-term expected return on its endowment net of investing fees, inflation, and administrative fees. The Foundation's goal is to provide sustainable funding to nonprofits in perpetuity.

Board-designated endowment funds were \$1,468,409 as of December 31, 2021, all of which was designated for grant making.

Board-designated endowment net asset composition as of December 31, 2021 and during the year then ended is as follows:
